ReplayTV Tip #3-Content Skip?

Hereâ??s an undocumented easter egg for ReplayTV boxes running v5.x. It was posted by tk2x on the AVS Forumâ?¦

jimstips.com

â??If you have been watching too much good programming with your Replay, and your brain canâ??t muster the long attention span needed when skipping commercial breaks, try this fix:

> *â??While playing a recorded show, press Play to go into slow-mo, then FF 2 times to go into 3x slomo.*
>
> Now hit the Commercial Advance button once to turn off CA. Then, hit it again, and youâ??ve gotâ?¦Content Advance. All that pesky content will be skipped, so you can enjoy the commercials uninterrupted.â?•

What a great way to watch all of those cool commercials during the SuperBowl while avoiding that nasty football!
